SUMMARY

A highly versatile and results-driven leader with over 7 years of experience spanning the full spectrum of customer-facing and operational roles within the Fintech, Crypto, Gaming, and E-commerce sectors. I am a specialist in building high-performing support departments from the ground up, scaling teams of up to 15 specialists, and designing efficient operational workflows. My expertise includes advanced proficiency with Intercom and Zendesk, including custom bot development and API integration using Python and JavaScript. I possess a deep, hands-on understanding of the entire payment lifecycle, P2P economies, and F2P game monetization, combined with a proven ability to drive revenue and enhance customer loyalty.

EXPERIENCE

Team Lead of Customer Support

Crypto Neobanking

Dec 2024 – Jul 2025

- Led a team of support specialists in a fast-paced crypto environment.
- Developed and implemented new support workflows and training materials to improve team efficiency and customer satisfaction.
